DARDAN LLAPASHTICA

Contact: 045-360-674   Address: Parku I Qytetit, Prishtine

Website: Coming Soon!   Email: dllapashtica47@gmail.com

PROFILE

I'm a Frontend developer interested in building reusable, useful, well-constructed components and applications. Interested in the continuation of learning new technologies.

WORK EXPERIENCE

React Developer - Digitize LLC 26/04/2021 – CURRENT – Prishtine, Kosovo

Main Projects:

- Capital Ria: Capital is a big financial institution which is a recognized financial leader in international transfers which provide fast and secure money transfers all around the world.
  Responsibilities - meeting with the team discussing about user interface ideas, reviewing app requirements, trouble shooting and debugging application code, improving frontend performance, designing and implementing reusable and responsive components etc.
- Biomedica: Biomedica is a web application for an Austrian medical company which provides more than 3 million products. I was mainly focused on the data call from the backend and product filters and completing them using react redux or local storage & GraphQL.
  Responsibilities - Meeting up and discussing about new requirements for the web application and mainly the same requirements as the other projects.

EDUCATION
